

This is a copy of the letter sent to David Barrett:

January 28, 2022

Hi David. After a discussion among SRA Board members, I would like to pass on to you our support of your efforts regarding the protection of your private lands from damaging activities as outlined in our meeting at the SRA office last week.

SRA believes strongly that private properties and public lands should be protected from any activities not permitted by the land owner and that users should be held responsible for any damage done to those lands or property therein.

We can discuss SRA support of your efforts as your needs arise. Please feel free to contact us when our support is needed.

Damon Conrad, P.Eng., BSc.
Coordinator
Sackville Rivers Association
